Tom Dunphy commented that the true heroes of the successful bond sale were the Council and without their leadership and guidance, this would not have been done. Mr. Dunphy noted this was the largest Redevelopment Agency issue in 2003, and the “double A” (AA) rating put the Milpitas Redevelopment Agency in the top 5 percent in the State. Mr. Dunphy complimented City staff for their work, especially the City Manager who gave direction, the Assistant City Manager who was involved in the day-to-day activities, and the Finance Director. Mr. Dunphy, assisted by Eileen Gallagher, presented the Mayor and each Councilmember with a plaque representative of the cover of the Official Statement used to market the bonds. Ms. Gallagher added that the City was very well represented by Vice Mayor Dixon and staff, they all did very well, and everyone should be proud. Mr. Dunphy and Ms. Gallagher also presented the Mayor and Councilmembers with a paperweight.

Vice Mayor Dixon extended her personal appreciation and that of the citizens of Milpitas to Mr. Dunphy and Ms. Gallagher for everything they did to help make this successful.

## **REPORTS OF OFFICERS & BOARDS**

**7.  
County Library  
Ballot Measure**

Principal Analyst Cindy Maxwell introduced Melinda Cervantes, who would be giving a brief overview regarding the County Library District Ballot Measure. Ms. Maxwell noted that staff was recommending approval of the resolution included in the Council's agenda packets endorsing the Library Ballot Measure.

Melinda Cervantes explained what the ballot measure meant to the County Library system, commenting that it would continue the same level of service that had been provided since 1994 when the voters supported Measure A, the current parcel tax, which would expire in July 2005. Ms. Cervantes said the new measure would provide a slight increase and approximately 21 percent of the Library District's annual funding comes from the parcel tax. Ms. Cervantes further stated that she hoped the Council would join in this effort to make sure the Measure is successful.

Councilmember Livengood inquired about the amount of the increase. Ms. Cervantes responded it was \$8.34, an increase from \$33.66 to \$42.00 for a term of seven years, and it would be a flat rate with no escalator. Councilmember Livengood further inquired how it would impact non-residential properties. Ms. Cervantes responded it was based on a formula and the increased amount for non-residential properties was comparable to the amount for residential properties.

Councilmember Polanski asked Ms. Cervantes to comment on the impact on the Milpitas Library if this does not pass, since it was just an extension of the current tax. Ms. Cervantes responded she did not have the hard numbers but essentially 21 percent of Milpitas operations

was equivalent to 13 employees, 21 percent of operating hours could be affected, there would be a reduction in new books and materials, fewer copies of materials, longer waits, and fewer programs. Ms. Cervantes added that the Measure required a two-thirds vote to pass and would provide an additional \$1.4 million. Councilmember Polanski said she was in support of the resolution and the extension for the value the library gives to the citizens of Milpitas but noted it would be a tough sell in 2004.

Ms. Maxwell pointed out that Marilyn Hay, the Chair of the Library Advisory Commission and also the Milpitas representative on the Campaign for Measure B, was present in the audience.

Vice Mayor Dixon noted that School Board Member Carmen Montano, who was also present in the audience, was also part of the Library Commission. Vice Mayor Dixon said she couldn't stress enough that this was going to be a hard sell, the Friends of the Milpitas Library and the Library Advisory Commission were talking to people in the community every weekend, these were uncertain times in the State of California, and if this measure doesn't pass by two-thirds in March, they will have to wait an entire year before going to the voters again. Vice Mayor Dixon further stated it takes money to run the campaign, asked Marilyn Hay to come forward to accept her personal check for \$100, and asked that her colleagues also contribute, at least the \$42 limit, making checks out to "Make Our Library Strong".

Mayor Esteves said he had already contributed \$250 during the kick-off and would be helping more in this campaign. The Mayor emphasized that this Measure would just restore the current hours, services, and books and the financial impact was minimal, only an \$8 per year increase, but without it the impact was tremendous. Mayor Esteves encouraged and called upon all residents to look at this Measure very carefully.

MOTION to adopt Resolution No. 7369 endorsing the Library Ballot Measure for the March 2, 2004, election.

M/S: Dixon, Polanski.

Mayor Esteves called on all residents and community leaders to help.

VOTE ON MOTION: Ayes: 5

## **NEW BUSINESS**

### **9. Light Rail Station Design Concepts**

Acting Planning Director Heyden introduced Gail Collins from the VTA, who would be presenting the proposed design concepts for the I-880/Milpitas Light Rail Station. Ms. Heyden reported that the Arts Commission reviewed the design concepts on November 24, 2003, and recommended approval of these two designs subject to two modifications.

Gail Collins reported the concepts were originally presented to the Council in 2001 as part of the CODE (Community Oriented Design Enhancements) program and due to previous commitments of the artist, they were not followed through on at that time. Ms. Collins further reported that Seattle artist, Ellen Sollod, was proposing two very unique art projects for the I-880 Milpitas station which, in the artist's words "draw upon the station's location as a crossroads to progress"; the first one was called "Cabinet of Invention and Obsolescence" based on 17<sup>th</sup> Century cabinets of wonders that were prevalent in Europe and was a sculpture that utilizes the sun to illuminate objects inside a stack of bronze boxes; the second piece, called "Camera Obscura", had a long history in astronomy and art and was an interactive art piece that allows the user to utilize the natural and prolific sunlight to observe the surroundings in an inverted and somewhat blurred manner. Ms. Collins said the art pieces would be located at the I-880/Milpitas LRT station. Ms. Collins further stated these were two very unique projects, and there was a lot of interest in them.

Councilmember Polanski commented that they were quite interesting and unique, she didn't think they would have been her choice but were very intriguing, and she trusted the recommendations of the City's Arts Commission.

Councilmember Livengood commented that he found both these pieces fascinating, they were not the most pleasing to the eye, but what he liked was that they invoked interaction and that was why he supported them. Councilmember Livengood said he would be supporting the recommendation because it would do just what was wanted - to give people something to do while they are waiting for the train and set this station apart from the others along the line. Councilmember Livengood expressed appreciation to the staff and the Arts Commission for their work.

Mayor Esteves said he really liked the scientific application and inquired about the comments by the Arts Commission regarding safety concerns associated with a rotating metal object design. Ms. Heyden responded that the recommendation made by the Arts Commission addressed a potential safety issue with the Camera Obscura. Ms. Collins said any kind of safety issue was of great concern to the VTA, too, and their operations staff would make sure there were no problems. Ms. Collins emphasized that they cannot present any safety concerns and must be easy to maintain.

MOTION to approve the proposed VTA CODE design concepts for the I-880/Milpitas LRT station, subject to the modifications recommended by the Milpitas Arts Commission.

M/S: Livengood, Dixon.

## ORDINANCES

### 12. Ord. No. 22.3 Disaster Council (Introduce)

Battalion Chief Americo Silvi reviewed the proposed amendments updating the City's Disaster Corp Council to add CitizensCorps responsibilities as recommended by the Department of Homeland Security. Chief Silvi reviewed the history of the City's Disaster Council and that of the CitizensCorps, established by President Bush to capture the spirit of service that emerged following September 11, 2001, and encompassing volunteerism. Chief Silvi explained the CitizensCorps responsibilities and membership and reported the proposed revisions were consistent with SEMS, the Department of Homeland Security recommended responsibilities and membership, were similar to ordinances in other Santa Clara County cities, and would help in securing future Federal grant funding for local volunteer programs.

Councilmember Livengood said he had no problem with the proposed changes as long as it was clear that the lines of authority remained the same. Councilmember Livengood further stated he was a strong believer in bringing the community together and using community resources, this was a very important step forward and kind of built on a number of things already being done, and he appreciated the efforts in bringing this forward.

Mayor Esteves asked if there was a fiscal impact. Chief Silvi responded the only fiscal impact was positive since this was laying the foundation for grant funding. Mayor Esteves further inquired if some plan for a goal had been established. Chief Silvi responded there was a goal was for SAFE teams based on the size of our community and staff; additionally, staff was looking at consolidating volunteer efforts; and also this was trying to be proactive in anticipation of the Federal Government requiring more unification of volunteer services on the local level.

Vice Mayor Dixon commented that this was quite astounding and she wanted the Council to be aware, as the liaison to the Citizens Emergency Preparedness Advisory Commission, this group of committed dedicated citizens, with the help of Battalion Chief Silvi, the Fire Chief, and George Washburn, was very proactive. Vice Mayor Dixon said the way the SAFE program has taken off was quite remarkable for the limited amount of staff and the hours put

into it; she thought we are on the right road and it was just a matter of pooling all that talent and resources.

Battalion Chief Silvi read the title of Ordinance No. 22.3 amending Chapter 1, Title V of the Milpitas Municipal Code updating the City's Disaster Corp Council and adding CitizenCorps duties.

MOTION to waive the reading beyond the title.
